Model Card

Task: Image-to-Image translation

---

0. Card Metadata

Creation date * : —

Versioning

- **Version number *** : —
- **Version changes *** : NA

---

1. Model Basic Information

Name * : —

Creation date * : —

Versioning

- **Version number *** : —
- **Version changes *** : NA

Model scope

Summary * : —

Anatomical site * : —

Clearance

- **Type *** : —

Approved by

Name(s): —

Institution(s) * : —

Contact email(s): —

Observed limitations * : —

Type of learning architecture * : —

Developed by

Name: —

Institution(s) * : —

Contact email(s): —

Conflict of interest * : —

Software licence * : —

---

2. Technical specifications

2.1 Model overview

Model pipeline

- **Summary *** : —

Figure: github_logo.png

Model inputs * : —

Additional information: —

Model outputs * : —

Additional information: —

Pre-processing * : —

Post-processing * : —

2.2 Learning architecture(s)

Learning architecture 1

Field	Value
Total number of trainable parameters *	—
Number of inputs	—
Input content	—
Input size	—
Number of outputs	—
Output content	—
Output size	—
Loss function *	—
Batch size	—
Regularisation	—
Uncertainty quantification techniques *	NA
Explainability techniques *	NA

2.3 Hardware & software

No hardware and software details specified.

---

3. Training Data Methodology and Information

Fine tuned form

Model name * : —

URL/DOI to model card * : —

Tuning technique * : —

Training Dataset

General information

Total size * : —

Number of patients * : —

Source * : —

Acquisition period * : —

Inclusion / exclusion criteria * : —

Type of data augmentation: —

Strategy for data augmentation: —

Technical specifications

No input/output technical specifications provided.

Reference standard * : NA

Reference standard QA * : NA

Patient demographics and clinical characteristics

Age * : NA

Sex * : NA

Validation strategy * : —

Validation data partition * : —

Train & validation loss curves * :

Model choice criteria * : —

Inference method * : —

4. Evaluation Data Methodology, Results and Commissioning

No evaluations provided.

5. Other considerations

No other considerations provided.
